

Varidisk®

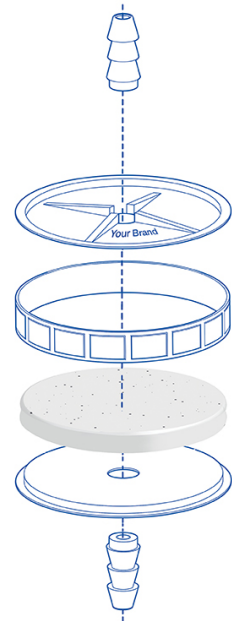

Varidisk® filters offer bespoke solutions for liquid clarification, equipment protection and sterile venting.

Used across the medical, laboratory, printing, and gas industries these filters provide a lightweight yet robust solution.

The 25 and 50mm filter devices are unique in being able to be fitted with a wide choice of connectors so that they can be securely positioned for your application

Choose Varidisk® for:

- ✓ **Small volumes for R&D**
- ✓ **Expert advice on media and connector choice**
- ✓ **Bespoke connectors to fit any device**
- ✓ **Can be printed with your own logo**

Varidisk® filters are tested before despatch for flow rates and bubble point in our in-house testing facility.
